QBH HD

OPERATING INSTRUCTIONS

A7595-0271 Rev C

Approved Copy

The Quad Battery Holder HD (QBH HD) is a versatile portable power accessory which allows seamless battery changes continuously powering any 15 or 30 volt (nominal) equipment. It is especially valuable in circumstances where equipment needs to be in continuous operation for long periods of time or for operating equipment demanding high currents (up to 12 amps). Cameras, monitors and portable field editors can be operated for as long a period as necessary, substituting fresh batteries for depleted ones without interrupting operation. As long as charged batteries are available, the equipment can be operated indefinitely.

OPERATION

- It is recommended that all four positions on the QBH HD be filled with batteries of the same model (Propac®, Trimpac® or Hytron™) for best performance.

- Use only 14.4 Volt Anton/Bauer® Propac®, Propac® Digital, Trimpac®, Trimpac® Digital or Hytron® batteries with the QBH HD. The QBH HD should not be used with 13.2 Volt batteries.

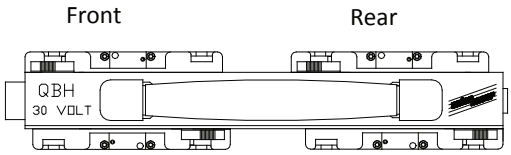
- Do Not Overload QBH HD: The QBH HD is equipped with a 12 amp resettable fuse for overload/short protection. If the fuse continues to open, check the equipment being powered for shorts. If there are no shorts on the equipment, call the Anton/Bauer Customer Service Department.

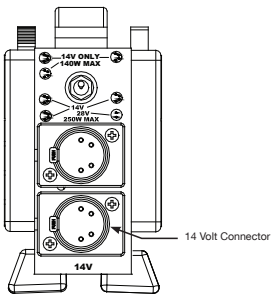
- Use batteries of the same voltage for optimum performance.

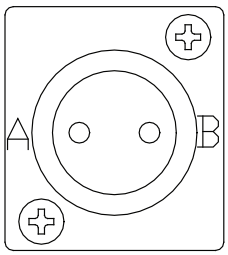
- Caution should be taken if using the QBH HD to power a light. Over discharging the batteries could be detrimental to the overall life of the batteries.

- Note polarity of output connector. When using a cable, be sure Pin #B (+) and Pin #A (-) are the same as the connector. See output connector diagram.

Note: Batteries should always be mounted filling the front first.







30 Volt Connector

Switch in the up position is only the three 14 volt output connectors, 140 watts max (4 pin XLR's are 14 volts only)
Switch in the down position is 14 volt and 30 volt output connectors, 250 watts max
2 pin amphanol is 30 volts only

SERVICE/MAINTENANCE

DO NOT OPEN UNIT: There are no user serviceable parts inside. Any repairs to this unit other than by Anton/Bauer or its authorized service facilities may void warranty. Contact the Anton/Bauer Customer Support Department and/or for Service, send the equipment prepaid to: Anton/Bauer, Inc., Shelton, CT 06484, Attn: Customer Support Department

SPECIFICATIONS

SIZE	11½" x 5" x 2½"
WEIGHT	1 lb. 12 oz.
MAXIMUM CURRENT	12 Amps
